THE EYE

Deep and lustrous ruby colour.

THE NOSE

Pinot Noir prevails, with its unmistakable nose so evocative of champagne, so reminiscent of Burgundy. It retains all the grape and red fruit aromas, then opens up to reveal an intense floral bouquet of rose, peony, carnation and violet... followed by nutmeg and vanilla.

THE MOUTH

In the mouth, there is a perfect balance between potency and gentleness. The fruit flavours are present, along with the florals and spices, with a hint of leather, coffee, and Havana cigars...

A wine who sing, dance, and leave a fragrance and a recollection of pleasure in the mouth.
